PRODUCT No. 3555

Container for used oil – 2500 l

(Ilustrative photograph)

Technical data

Material	Polyethylene (PE)
Capacity	2500 l
Weight	210 kg
Width	1460 mm
Depth	2460 mm
Height	1600 mm

Attributes

- Made of high quality polyethylene.
- Double-casing design.
- Material is resistant to oils and commonly used oil chemicals.
- Material is UV resistant.
- Due to the design and quality of the material, the container is resistant to mechanical damage.
- Standard equipment – liquid leak detector in the interlayer, opening for a probe for level measurement.
- Thanks to the double-casing design, the container does not need a catching basin.

Product purpouse

- Designed for the collection of used oil (eg. for gas stations, repair shops, etc.)
