TECHNICAL DATA SHEET

Antistatic plastic barrel – 26 l
TYPE: F3D_3244_0000

Illustrational photograph

TECHNICAL DATA

Material (barrel and lid / gasket)	HDPE / EPDM
Capacity	26 l
Weight	1,3 kg
Inner opening diameter	203 mm
Diameter	316 mm
Height (with lid)	425 mm
Surface resistivity	≤ 10^4 Ohm
UN code	YES

ATTRIBUTES

- Made of conducting high density polyethylene with a carbon-based additive.
- Protects explosive products from electrostatic discharge and helps to create a safe work environment.
- Equipped with screw-on lid with gasket.
- Barrel is in accordance with regulation requirements for use in areas with a risk of explosion.
- Used for storage and transport of loose, per piece or pasty flammable substances in the chemical, electrical or automotive industries.

COLOUR VARIATIONS

Black.

PRODUCT PURPOUSE

Product is designed for storing and transportation of highly flammable materials, like granules, tablets or powder.

ADDITIONS

Certified and labelled with UN code for storing and transportation of dangerous solid wastes.
Not suitable to be used in food industry.
Expiry date: 5 years from the date of manufacture.
