TECHNICAL DATA SHEET

Tube container with spring leaded lids
TYPE: F2K_5603_0003

Illustrational photograph

TECHNICAL DATA

Material	Steel sheet
Material thickness (bottom/sidewalls)	5 / 3 mm
Capacity	10 m^3
Load capacity	7000 kg
Inner dimensions (L x W x H)	4000 x 1820 x 2000 mm

ATTRIBUTES

- Made of high-quality steel sheet.
- The lids are equipped with a handle and a locking buckle.
- After unlocking, the lid is lifted by itself – relieved by a spring mechanism.
- Equipped with a chain for easy pulling of the lid.
- Surface finish – base and top layer of powder paint.
- Safety clamps on the bottom are manufactured in two options – West-European type and Czech type.
- Czech type – two lifting attachments side by side / West-European type – one lifting attachment.

COLOUR VARIATION

According to RAL sampler.

PRODUCT PURPOUSE

Product is designed for transport and storage of waste.

ADDITIONS

Also produced in different dimensions.
The loops of steel cables must be safely fastened to all four side pins. When handled by a crane, the movement of people on, around and in vicinity of container is forbidden. The container is designed for transportation by trucks equipped with an arm carrier. Before handling the container, lids of the container must be secured properly. When transporting the container, it is necessary to secure it against movement by locking hitches in the bottom.
