TECHNICAL DATA SHEET

Tube container with hinged front side
TYPE: F2K_5601_0003

Illustrational photograph

TECHNICAL DATA

Material	Steel sheet
Steel	ČSN 11 375
Version	Hinged front side
Material thickness (bottom/sidewalls)	5 / 3 mm
Capacity	10 m^3
Inner dimensions (L x W x H)	4000 x 1820 x 1800 mm

ATTRIBUTES

- Made of high-quality steel sheet with 5 mm thickness for bottom and 3 mm for walls.
- Tube containers are manufactured with hinged front side.
- Tube containers are designed for manipulation by a crane – side pins.
- Surface finish – base and top layer of powder paint.
- Locking hitches on the lower edge can be installed in two layout versions – Western Europe and Czech type.
- Czech type – two hitches side by side.
- Western European type – one hitch.

COLOUR VARIATION

According to RAL sampler.

PRODUCT PURPOUSE

Product is designed for transport and storage of waste.

ADDITIONS

Also produced in different dimensions.
The loops of steel cables must be safely fastened to all four side pins. When handled by a crane, the movement of people on, around and in vicinity of container is forbidden. The container is designed for transportation by trucks equipped with an arm carrier. When transporting the container, it is necessary to secure it against movement by locking hitches in the bottom.
