TECHNICAL DATA SHEET

Tube container CLASSIC with reinforced construction
TYPE: F2K_5057_0003

Illustrational photograph

TECHNICAL DATA

Material	Steel sheet
Material thickness (bottom/sidewalls)	5 / 3 mm
Capacity	10 m^3
Weight	710 kg
Inner dimensions (L x W x H)	4000 x 1820 x 1700 mm

ATTRIBUTES

- Made of steel sheet.
- Containers are welded from the inside and outside – ensuring watertightness.
- Surface finish – base + top layer of paint.
- Safety clamps on the bottom are manufactured in two options – West-European type and Czech type.
- Czech type – two lifting attachments side by side.
- West-European type – one lifting attachment.
- Primarily suitable for storage and transport of paste state wastes.

COLOUR VARIATION

According to RAL sampler.

PRODUCT PURPOUSE

Product is designed for transport and storage of waste.

ADDITIONS

Also produced in different dimensions.
The loops of steel cables must be safely fastened to all four side pins. When handled by a crane, the movement of people on, around and in vicinity of container is forbidden. The container is designed for transportation by trucks equipped with an arm carrier. When transporting the container, it is necessary to secure it against movement by locking hitches in the bottom.
