PRODUCT No. 3989

Mobile filling station for gasoline – 120 l

(Ilustrative photograph)

Technical data

Material	Polyethylene (PE)
Capacity	120 l
Weight	23 kg
Output	25 l/min
Delivery hose (length)	2,7 m
Width	800 mm
Depth	600 mm
Height	450 mm

Attributes

- Made of electrically conductive plastic Polyethylene (PE).
- Used for transporting and refueling of gasoline.
- They will find application not only in industry, forestry, agriculture, but also in a motor sport.
- Single-wall tank with dipstick as a content level indicator, integrated dispenser holder, delivery nozzle and overpressure vent to allow continuous collection without opening the tank.
- Equipped with a valve which allows complete closure of the tank – increased transport safety.
- Safe stacking and fastening allowed by protrusions and bulges on the tank.
- Equipped with a hand pump with 25 l/min of output, with delivery hose with length of 2,7 m with delivery valve for comfortable refueling.
- Approved for transport and immediate consumption according to ADR 1.1.3.1c).

Color variations

- Black.

Product purpouse

- Designed to pump and transport of gasoline.

Additions

- Flap lid can be ordered – type 3987.
