PRODUCT No. 7207

Mobile pumping system for AdBlue for 220 l barrels

(Illustrative photograph)

Technical data

Output	30 l/min.
Weight	39 kg
Length	820 mm
Depth	780 mm
Height	1060 mm

Attributes

- Practical solution for AdBlue® refuelling in manufacturing and service plants, civil engineering and agriculture.
- Urea solution (AdBlue®) is not dangerous substance; therefore, its transport is not subject to ADR without certification.
- Pumping systems are equipped with special pumps, which are chemically resistant to AdBlue®.
- Equipment: self-suction membrane pump with 30 l/min of output, 230 V with 6-meter-long delivery hose, 0,5-meter-long suction hose with connecting adapter, everything completely mounted on stainless brackets. Automatic delivery nozzle with a draining pocket is a part of delivery.

Product purpouse

- Designed for pumping of AdBlue® liquid.

Additions

- The set does not contain the plastic barrel.
- Can be used for antifreeze mixtures.
