PRODUCT No. 7295

UNI Tank pump station – 1500 l

(Ilustrative photograph)

Technical data

Material (Housing/tank)	Galvanized steel/HDPE
Capacity	1500 l
Weight	176 kg
Pump/flowrate	230 V / 50l/min
No. of tanks	1x
Width	2010 mm
Depth	770 mm
Height	2020 mm

Attributes

- The housing of the tank is made of galvanized steel sheet.
- The inner tank is made of seamless high density polyethylene (HDPE).
- The sets of stations are supplied with a connection set.
- The housing serves as a catching basin.
- The sets of stations are certified for use in hand-held warehouses or buildings.
- Equipped with a 230 V electric pump with a flow rate of 50 l/min, a dispensing hose (4 m), an automatic dispenser, a holder, a digital flowmeter, and a filling opening for filling the tank.

Product purpouse

- Designed for pumping of diesel oil.

Additions

- Ability to create a storage capacity of up to 4500 l by assembling the tanks into set.
- Option to deliver a single 1500 liter container or a complete set of two or three tanks.
