PRODUCT No. F6A_3899_0000

Full ESD pallet – 1200 x 1000 mm – 3 skids

(Ilustrative photograph)

Technical data

Material	ESD PP
Design	with 3 skids
Weight	19,9 kg
Load capacity (dyn./stat./high rack)	1500/3500/300 kg*
Spec. internal resistance	10^3<10^{10} Ohm/cm**
Length	1200 mm
Width	1000 mm
Height (safety edge)	163 (7) mm

Attributes

- Made of electrically conductive plastic polypropylene (ESD PP).
- The pallet provides low weight and high load capacity.
- Thanks to ESD material the pallet is suitable for storing and transportation of electric components.
- Full design.
- Avoid to point loading - weight must be evenly distributed along the loading space of the pallet.

Color variations

- Black (RAL 9017).

Product purpouse

- Designed for the storage and transportation of electric components.

Additions

- ESD version.

*Indicative values, based on practical experience and parts of ISO 8611, under uniform load at room temperature (20 °C). Depending on the conditions, different values were recorded - it is recommended to test the product before use.
**Note: Please note that due to flow orientation, which depends on the processing method, the finished parts may have different electrical properties.
