PRODUCT No. 7544

Heating jacket for 200 l barrel – 1200 W

(Ilustrative photograph)

Technical data

Material	Polyester fabric
Capacity (barrel)	200 l
Voltage	230 V
Output	1200 W
Power cord (length)	3 m/without a plug
Width	800 mm
Length	1990 mm

Attributes

- The jacket is made of polyester fabric.
- Electrical heater for 200 l barrels – keep the content at constant temperature and viscosity or as protection against frost.
- Equipped with a simple thermostat with heating range 0-90 °C.
- Lightweight and simple design.
- Resistant material and tight fastening of straps to the barrels ensures long lifetime even when transported on the barrel.

Specification: Insulated silicone spiral reeled to a resistance element, adjustable buckles for quick assembly and disassembly, 3m long power supply cable (without a plug), thermostat 0-90 °C (0-40 °C on order), IP40 protection.

Product purpouse

- Designed for heating of water, oils, diesel fuel, resins, mineral jellies, waxes, fats and glues.

During use of heating jacket with a plastic drum, it is recommended to use digital thermostat in range of max. 0-40 °C because of possible material melting due to higher temperature.
