Attributes

- Made of plastic material.
- Quick water-filling system Gikabe allows you to comfort pump water in the garden.
- During watering the garden in a traditional way, you do not have to wait for the bucket or watering can to be filled.
- It takes approximately 5 seconds after pressing the button at the top of the tank to fill a bucket or watering can.
- Before we empty the watering can, the Gikabe tank will be full again.
- No electrical power is required – the system is equipped with a hose connection.
- The system can be placed on the outside wall of the house at any height.

Color variations

- Black (graphite).

Product purpouse

- Designed for filling watering cans and buckets for watering the garden.
