# PRODUCT No. 8233

## Covered plastic catching basin – 2 barrels

(Ilustrative photograph)

## Technical data

| | |
|---|---|
| Material | Polyethylene (PE) |
| Basin capacity | 220 l |
| Weight | 100 kg |
| Load capacity | 600 kg |
| No. of barrels | 2 |
| Length | 1600 mm |
| Depth | 1140 mm |
| Height | 1980 mm |

## Attributes

- Made of highly durable polyethylene.
- High chemical resistance of the material.
- Lockable doors with holder of documents on the inner side of doors.
- Integrated recesses for the forks of forklift machinery.
- Version for storing 2x 200 l barrels on EURO pallets (1200 x 800 mm).
- Possibility of equipping with plastic or steel grate for direct storing of barrels without using pallet (not included).
- Covered catching basin is equipped with doors with possibility to be opened into 270° angle.
- In case of positioning covered basins into a row the doors can be opened into 180° angle.
- Doors can be closed in steps of 90°.
- There is integrated rain gutter at top of door opening.
- Domed roof withstands higher snow loads.

## Colour variations

- Body / doors – grey / orange.

## Product purpose

- Designed for protection of stored barrels against environment influences.

## Additions

- Possibility of adding steel grate (type 8201) or plastic grate (type 8236).
