TECHNICAL DATA SHEET

Metal barrel with plugs – 200 l
TYPE: B0461

Illustrational photograph

TECHNICAL DATA

Material	Galvanized steel sheet
Material thickness (bottom/housing)	1 / 1 mm
Capacity	200 l (± 3 %)
Weight	18,5 kg (± 3 %)
Max. btto weight	250 kg*
Plug (housing)	1x G2”
Finishing	Galvanized
UN code	YES
Dimensions (diameter x height)	595 x 820 (± 3 mm)

*Weight of barrel including filling

ATTRIBUTES

- The barrel is suitable for transport and storage of liquid substances.
- Stamping on the lid means approval for transport according to international regulations (IMDG, RID, ADR).
- The barrel is made of steel galvanized sheets.
- Housing is welded and strengthened with pressed stiffeners.
- Storing only in vertical position.
- The bottom and lid are connected with housing by multiple safety folding.
- A sealing substance is applied in the folding to provide tightness that is examined with each barrel.
- The filling opening is closed by a plug that can be secured by a protective cap with a tear-off strip. This ensures original condition of the packaging.
- Can be used multiple times, reconditioned and recycled.

PRODUCT PURPOUSE

Designed for storing and transportation of all kinds of liquid substances.

ADDITIONS

Products No. 3247 and 0735 can be ordered – barrel plug openers.
